

DATA ANALYTICS INTERNSHIP

TASK 5 – FINAL PROJECT REPORT

Sample Superstore Sales Analysis

EXECUTIVE SUMMARY

This project presents an end-to-end data analytics workflow using the Sample Superstore dataset. The work covers data cleaning, exploratory analysis, SQL-based analysis, dashboard development, and advanced analytics.

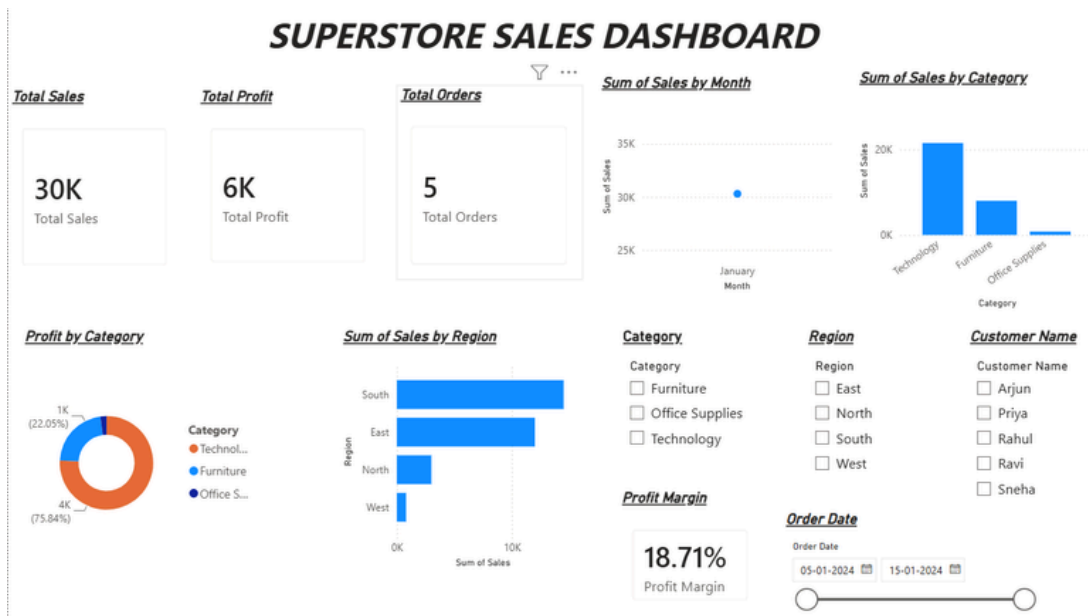

The final dashboard provides a concise view of sales, profit, orders, category performance, regional performance, customer contribution, and profit margin.

The analysis shows that Technology is the leading category, South is the strongest region, and sales are concentrated among a small number of customers.

KEY PERFORMANCE INDICATORS

KPI	Value
Total Sales	30,300
Total Profit	6,000
Total Orders	5
Total Customers	5
Total Quantity	12
Average Order Value	6,060

DASHBOARD OVERVIEW

TOP 5 BUSINESS INSIGHTS

1. Technology Leads Sales
2. South is the Top Region
3. Technology Drives Profit
4. Top Customers Drive Sales
5. Positive Profitability

BUSINESS RECOMMENDATIONS

1. Prioritize Technology
2. Improve Weak Regions
3. Retain Top Customers

CONCLUSION

The analysis highlights Technology and South as key performance drivers. Improving weaker areas and customer retention can further increase sales and profitability.
